

# SEMISAURUS

• MOBILE MUSEUM •

SEMISAURUS is a Mobile Creation Museum (a 48-foot semi-trailer) with realistic displays providing facts & evidence that tackle the creation-evolution debate head-on.

## What will I see in the museum?

The museum has four main display areas that provide historical context, fossils, artifacts and interactive cut-screen technologies. Visitors can participate in a self-guided audio tour, see a replica of Noah's ark and take in the sights, sounds and smells of 'the swamp room.' It's professional, highly technical and engaging for every age group.
